Abas Haji
 Software Developer
 DataAnnotation
 Portland, Oregon

Dear Hiring Manager,

I am writing to express my interest in the Software Developer position at DataAnnotation. With hands-on project experience and a strong background in front-end and collaborative development, I am eager to contribute my skills and passion for technology to your team.

In my recent Live Project experiences, I worked on applications such as a Pizza Menu app and a Cinema Ticket site. These projects taught me how to collaborate using Agile Scrum, manage tasks in Azure DevOps, and deliver functional, user-friendly applications within tight deadlines. Additionally, I built an independent portfolio website using HTML, CSS, and JavaScript to showcase my work, reflecting both initiative and technical ability.

These experiences demonstrate my ability to adapt quickly, problem-solve, and deliver results that align with business goals. I am confident that my skills, teamwork, and commitment to continuous learning make me a strong fit for this role at DataAnnotation.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team's success.

Sincerely,
 Abas Haji
